ENVIRONMENTAL MANAGEMENT SYSTEM

SELF-DECLARATION

Ames Laboratory-DOE declares that it has an environmental management system that is fully integrated with its integrated safety management system and meets the requirements of **Executive Order 13423**, ***Strengthening Federal Environmental, Energy, and Transportation Management and DOE Order 450.1A, Environmental Protection Program (Contractor Requirements Document)***. This integrated management system provides Ames Laboratory with the means to meet or exceed compliance with applicable environmental, public health and safety and resource protection laws, regulations and DOE requirements. In making this declaration, Ames Laboratory has relied on the following: The Environmental Management System Audit conducted by DOE-CH (May 2009), ISM/EMS assessments and reviews, ESH&A personnel, and open communication of safety and environmental concerns among all levels of line management. Ames Laboratory has undertaken action to further improve its Environmental Management System (EMS) and has implemented an effective assurance process to ensure continuous improvement.
