INSTRUCTIONS TO REQUISITIONER

A "Justification for Noncompetitive Procurement" required for all procurement requests in excess of \$25,000 (unless otherwise exempt) where the initiating program office concludes that one source has exclusive capability to perform the work within the time required and at reasonable prices, and recommends that a contract/purchase order be negotiated only with that source. The recommendation shall examine the reasons for the procurement being noncompetitive; the degree of consideration that has been given to other sources in the particular field and the reason(s) they lack the capability(ies) and/or capability that the proposed source evidences. The following considerations must be made and supported in preparing the justification. Detail may be commensurate with complexity and value of requirement but content must permit sound judgment of justification. Additional supporting data should be attached if necessary.

I. DESCRIPTION OF SUPPLIES OR SERVICES TO BE PROCURED

- A. A brief, general nontechnical description and statement of the general application and particular significance or specialized character of the procurement.
- B. A description of all associated supplies or services, e.g., technical data, reports, engineering services, and so forth to be procured.

II. SCHEDULE REQUIREMENTS

- A. The basis for establishing schedule requirements.
- B. An explanation of the urgency, if any, of the requirement. Describe why the schedules are critical and why only the proposed supplier can meet them.
- C. Describe what significant cost savings or other benefits could result if schedules could be relaxed and whether competition could thus be obtained.

III. EXCLUSIVE CAPABILITY

- A. Does the proposed supplier have personnel considered unquestionably predominant experts in the particular field?
- B. What prior experience of a highly specialized nature does the source exclusively possess that is vital to the proposed effort?
- C. What facilities and/or test equipment does the source exclusively have that are complex or specialized and vital to the effort?
- D. Is competition precluded because of the existence of patent rights, copyrights, secret processes, trade secrets, technical data, or other proprietary data?
- E. What other capability and/or capacity does the proposed supplier have that is necessary for the specific effort and makes it clearly the only source that can perform the work on the required time schedule without incurring clearly unreasonable costs?

IV. OTHER

- A. If lack of drawings or specifications are a constraining factor, why is the proposed supplier clearly best able to perform under these circumstances? Why are the drawings and specifications lacking? What is the lead time required to get drawings and specifications suitable for competition?
- B. Are parts or components being procured as replacement parts in support of equipment specially designed by a manufacturer, where data available are not adequate to assure the parts or components obtained from another source would perform the same function?

VI. REVIEW AND APPROVAL

- A. Authorized Representative (PR Final Approver).
- B. Appropriate Procurement official.
