

ENVIRONMENTAL MANAGEMENT SYSTEM SELF-DECLARATION

The Ames Laboratory, a U.S. Department of Energy (DOE) Office of Science research laboratory, declares that it has an Environmental Management System (EMS) that is fully integrated with its Integrated Safety Management System (ISMS) and meets the requirements of ***Executive Order 13693, Planning for Federal Sustainability in the Next Decade and DOE Order 436.1, Departmental Sustainability (Contractor Requirements Document)***. This integrated management system provides Ames Laboratory with the means to meet or exceed compliance with applicable environmental, public health and safety and resource protection laws, regulations and DOE requirements. In making this declaration, Ames Laboratory has relied on the following: The Environmental Management System Audit conducted by DOE-Chicago (February 9-11, 2015), ISMS/EMS assessments and reviews, ESH&A personnel, and open communication of safety and environmental concerns among all levels of line management. Ames Laboratory has undertaken action to further improve its Environmental Management System and has implemented an effective assurance process to ensure continuous improvement.
